RIVERSIDE AVENUE IN CHINO TO CLOSE FOR CONSTRUCTION NEAR SR-83

CHINO – The California Department of Transportation (Caltrans) began a construction project on Riverside Avenue in Chino east of State Route 83 on Monday August 2, 2004. As a result, eastbound Riverside Avenue will be closed beginning August 9, 2004 for approximately three weeks. Work hours will be from 8:00 a.m. to 5:00 p.m.

The project will remove and replace gutters and improve the drainage facilities along this section of Riverside Avenue. Detour signs are in place and motorists are advised to use alternate routes during the construction project.

Commuters who travel in the area of the project are asked to plan their trip to avoid the closure. Please drive with caution when you enter the work area and slow for the workers. The life you save may be your own, when you slow for the cone zone.
